INDEPENDENT AUDITORS' REPORT

To the Board Members of
Northland Library Cooperative
Alpena, Michigan

We have audited the accompanying financial statements of the governmental activities and the major fund of the **Northland Library Cooperative, Alpena County, Michigan** (the "Cooperative"), as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the Cooperative's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the Northland Library Cooperative as of September 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 - 6 and 19 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Schulze, Oswald, Miller & Edwards PC

November 11, 2019

The following discussion and analysis of the financial performance for the Northland Library Cooperative (the "Cooperative") provides an overview of the Cooperative's financial activities for the fiscal year ended September 30, 2019. Please read it in conjunction with the Cooperative's financial statements.

USING THIS ANNUAL FINANCIAL REPORT

This annual report consists of three parts: (1) Management's Discussion and Analysis (MD&A), (2) the basic financial statements, which include two kinds of statements that present different views of the Cooperative, and (3) required supplementary information.

The first two statements are government-wide financial statements that provide both long and short-term information about the Cooperative's overall financial status.

The remaining statements are fund financial statements that focus on the individual parts of the Cooperative, reporting the Cooperative's operations in more detail. The governmental fund statements tell how basic services were financed. The financial statements also include notes that explain some of the information in the statements and provide more detailed data.

The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the Cooperative's budget for the year.

The following chart illustrates how the various parts of this annual report are arranged and related to one another.

Government-wide financial statements. The *Government-wide financial statements* are designed to provide readers with a broad overview of the Cooperative's finances, in a manner similar to private-sector business.

The *statement of net position* presents information on all of the Cooperative's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Cooperative is improving or deteriorating.

The *statement of activities* presents information showing how the Cooperative's net position changed during the recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Cooperative, like other State and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Activities of the Cooperative are presented in one fund, the General Fund.

Governmental funds. Governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the Government-wide financial statements, it is useful to compare the information presented for *governmental activities* in the Government-wide financial statements. By doing so, readers may better understand the long-term impact of the Cooperative's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Cooperative maintains one governmental fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. These statements can be found on pages 9 - 12 of this report.

The Cooperative adopts an annual budget for its general fund. A budgetary comparison statement has been provided for the general fund. This statement can be found on page 19 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the Government-wide and fund financial statements. The notes to the financial statements can be found on pages 13 - 18 of this report.

Required Supplementary Information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the Cooperative's budgets. Comparison statements are provided to show budget to actual information and related variances. The required supplementary information statement is on page 19 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Cooperative, assets exceeded liabilities by \$257,315 at the close of the most recent fiscal year. The balance of *unrestricted net position* \$257,315 may be used to meet the Cooperative's ongoing obligations to citizens and creditors.

Governmental Activities. Governmental activities increased the Cooperative's net position by \$43,044. Key elements of this increase are as follows:

- Revenues increased by \$39,217, while expenses increased by \$23,190.

Summary of The Cooperative's Net Position

	Governmental Activities	
	09/30/2019	09/30/2018
Current Assets	\$ 257,315	\$ 214,528
Noncurrent Assets	-	-

Total Expenses	256,908	233,718
Change in Net position	\$ 43,044	\$ 27,017

FINANCIAL ANALYSIS OF THE COOPERATIVE'S FUNDS

As noted earlier, the Cooperative uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Cooperative's *governmental fund* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Cooperative's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Cooperative's governmental fund reported an ending fund balance of \$257,315. Of the total balance, \$157,315 is *unassigned fund balance*, which is available for spending at the government's discretion. \$100,000 is assigned by the board, which means it is tentatively set aside for a particular purpose. Further information on this assignment can be found in the notes to the financial statements.

The fund balance of the Cooperative's general fund increased by \$43,044 during the current fiscal year.

BUDGETARY HIGHLIGHTS

The Cooperative prepared an annual budget for the year. The budget was modified during the year. There were no overall unfavorable variances between actual results and budgeted expectations.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The Cooperative had no capital assets as of September 30, 2019.

Long-term Debt

The Cooperative had no long-term debt as of September 30, 2019.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The Cooperative's financial forecast is static heading into the 2020 Cooperative year.

- It is expected that state aid dollars from the state will continue to be an unpredictable source of funds in the future considering current economic conditions with the State of Michigan.

CONTACTING THE COOPERATIVE'S FINANCIAL MANAGEMENT

This financial report is designed to provide its readers with a general overview of the Cooperative's finances and to demonstrate the Cooperative's accountability for the money it receives. If you have questions about this report or need additional information, contact the Cooperative's office at:

Northland Library Cooperative, Executive Director, 900 Evergreen Court, Petoskey, Michigan 49770.

NORTHLAND LIBRARY COOPERATIVE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2019

NOTE 1 - REPORTING ENTITY AND BASIS OF PRESENTATION

Definition of the Reporting Entity

The Northland Library Cooperative (the "Cooperative") is a not-for-profit entity established under the laws of the State of Michigan, (links a group of Northern Michigan public libraries in areas of common interest and benefit). These areas include interlibrary lending, resource sharing services, advocacy, consulting, and continuing education. The Cooperative is supported primarily through Federal and State Aid administered by the Library of Michigan.

Basis of Presentation

The financial statements present the fund financial statement on a modified accrual basis with an adjustment to present the statement of net position and the statement of activities on a full accrual basis.

Fund Financial Statements

In order to ensure observance of limitations and restrictions placed on the use of the resources available to the Cooperative, the accounts are maintained in accordance with the principles of fund accounting. This is the procedure by which resources for various purposes are classified for accounting and reporting purposes into funds, which are maintained in accordance with the activities or objectives specified.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Cooperative conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies:

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Other items not properly included among program revenues are reported instead as a general revenue.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

State Aid and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the government.

The Cooperative reports the following major governmental fund:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Cash and Cash Equivalents

Cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with maturity of three months or less when acquired.

Receivables

All trade receivables are shown as net of allowance for uncollectible amounts.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Cooperative does not have any deferred outflows of resources.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. The separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Cooperative does not have any deferred inflows of resources.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

Fund Balance Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Equity

In the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable - Includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted - Includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

Committed - Includes amounts that can only be used for specific purposes determined by a formal action by Board Resolution. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (Board Resolution) that was employed when the funds were initially committed.

Assigned - Includes amounts a government intends to use for a specific purpose. Intent can be expressed by the Board or by an official or body to which the Board delegates the authority.

Unassigned - Includes amounts that are available for any purpose. Positive amounts are only reported in the General Fund.

Restricted resources are used first when an expense is incurred for which both restricted and unrestricted resources are available. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Cooperative considers amounts to have been spent first from committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board has provided otherwise in its commitment or assignment actions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net position. The face amount of debt issued is reported as other financing sources. Issuance costs are reported as debt service expenditures.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 3 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets and Budgetary Accounting

The State of Michigan adopted a Uniform Budgeting and Accounting Act applicable to all local governmental entities in the state. The law requires appropriation acts to be adopted for General and Special Revenue Funds of governments prior to the expenditure of monies in a fiscal year.

The Cooperative follows these procedures in establishing the budgetary data reflected in the financial statements.

1. The Cooperative's director submits to the Board of Trustees a proposed budget prior to October 1 of each year. The budget includes proposed expenditures and the means of financing them.
2. Budgeted amounts are as originally adopted, or as amended by the Board of Trustees throughout the year. Individual amendments were not material in relation to the original appropriations. Budgets are adopted to the functional level.

A comparison of actual results of operations to the budgeted amounts (at the level of control adopted by the Board of Trustees) for the General Fund is presented as Required Supplementary Information.

For the fiscal year ended September 30, 2019, there were no accounts in which expenditures were in excess of budgeted amounts.

Accumulated Fund Deficits

The Cooperative had no funds with an accumulated fund balance deficit at September 30, 2019.

NOTE 4 - CASH AND CASH INVESTMENTS

Deposits are in two financial institutions in the name of the Cooperative. The Cooperative's investment policy authorizes the Cooperative Treasurer to invest in the following types of securities:

- A. Bonds, securities, and other obligations of the United States, or an agency or instrumentality of the United States.

NORTHLAND LIBRARY COOPERATIVE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2019

NOTE 4 - CASH AND CASH INVESTMENTS (continued)

- B. Certificates of deposit, savings accounts, deposit accounts or depository receipts of a financial institution, but the Cooperative shall not deposit or invest funds in a financial institution that is not eligible to be a depository of funds belonging to the state under a law or rule of this state or the United States.
- C. Mutual funds registered under the Investment Company Act of 1940, Title I of Chapter 686.65 State / 890.15 ISC 9a1 to 80a-3 and 80a-4 to 80a-64, with authority to purchase only investment vehicles that are legal for direct investment by a public corporation. However, a mutual fund is not disqualified as a permissible investment solely by reason of either of the following:
 - i. The purchase of securities on a when-issued or delayed delivery basis.
 - ii. The ability to lend portfolio securities as long as the mutual fund receives collateral at all times equal to at least 100% of the value of the securities loaned.
 - iii. The limited ability to borrow and pledge a like portion of the portfolio's assets for temporary or emergency purposes.
- D. Investment pools organized under the Surplus Funds Investment Pool Act, 1982 PA 367, MCL 129.111 to 129.118; or
- E. The investment pools organized under the Local Government Investment Pool Act, 1985 PA 121, MCL 129.141 to 129.150.

Michigan Compiled Laws, Section 129.91 authorizes the Cooperative to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations which have an office in Michigan. The Cooperative is allowed to invest in bonds, securities and other direct obligations of the United States or any agency or instrumentality of the United States; United States government or federal agency obligations; repurchase agreements; bankers' acceptance of United States banks; commercial paper rates within the two highest classifications which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated as investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan. The Cooperative's deposits are in accordance with statutory authority.

CUSTODIAL CREDIT RISK - DEPOSITS

In the case of deposits, this is the risk that in the event of a bank failure, the Cooperative's deposits may not be returned to it.

At September 30, 2019, the carrying amount of the Cooperative's deposits were \$255,797. The respective bank balance totaled \$298,106, of which the full amount was covered by Federal Depository Insurance. The difference between the carrying amount of the Cooperative's deposits and the respective bank balance represents checks written during the year but not yet presented for payment.

All of the Cooperative's deposits were made in accordance with the investment policy.

CUSTODIAL CREDIT RISK - INVESTMENTS

For an investment, this is the risk that in the event of the failure of the counterparty, the Cooperative will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Cooperative will minimize custodial credit risk, which is the risk of loss due to the failure of the security issuer or backer, by limiting investments to the types of securities which are in accordance with State law.

NORTHLAND LIBRARY COOPERATIVE
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2019

NOTE 5 - RISK MANAGEMENT

The Cooperative is exposed to various risks of loss related to property loss and torts, errors, omissions, and employee injuries. The Cooperative has purchased commercial insurance for property, personal liability, and umbrella coverage. Settled claims relating to the commercial insurance are not expected to exceed the amount of insurance coverage.

NOTE 6 - COMPENSATED ABSENCES

The Cooperative does not offer compensated absences, therefore there is no accrual presented in accordance with Governmental Accounting Standards Board's Statement No. 16 "Accounting for Compensated Absences".

NOTE 7 - PENSION PLAN

The Cooperative does not provide a pension plan.

NOTE 8 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through November 11, 2019, the date on which the financial statements were available to be issued.

REQUIRED COMMUNICATION TO THE NORTHLAND LIBRARY COOPERATIVE IN ACCORDANCE WITH PROFESSIONAL STANDARDS

Northland Library Cooperative Board Members
Alpena County, Michigan

We have audited the financial statements of the governmental activities and the major fund of the Northland Library Cooperative ("the Cooperative") for the year ended September 30, 2019. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated November 6, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by Northland Library Cooperative are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2019. We noted no transactions entered into by Northland Library Cooperative during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. There were no sensitive estimate affecting the financial statements.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. There were no sensitive disclosures affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of

audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representation

We have requested certain representations from management that are included in the management representation letter dated November 11, 2019.

Management's Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Cooperative's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as Northland Library Cooperative's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to the Management's Discussion and Analysis and Budgetary Comparison Schedule, which is required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquires of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

Upcoming GASB Statements:

In November 2016, the Governmental Accounting Standards Board issued GASB Statement No. 83, Certain Asset Retirement Obligations, which addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. This Statement requires that recognition occur when the liability is both incurred and reasonably estimable. Laws and regulations may require governments to take specific actions to retire certain tangible capital assets at the end of their useful lives. This Statement requires the measurement of an ARO to be based on the best estimate of the current value of outlays expected to be incurred. The Cooperative is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the Cooperative's financial statements for the fiscal year ending September 30, 2020.

In January 2017, the Governmental Accounting Standards Board issued GASB Statement No. 84, Fiduciary Activities, which establishes criteria for identifying fiduciary activities of governments and improves guidance for accounting and financial reporting related to how these activities should be reported. The Cooperative is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the Cooperative's financial statements for the fiscal year ending September 30, 2020.

In June 2017, the Governmental Accounting Standards Board issued GASB Statement No. 87, Leases, which improves accounting and financial reporting for leases by governments. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. The Cooperative is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the Cooperative's financial statements for the fiscal year ending September 30, 2021.

Restrictions on Use

This information is intended solely for the use of the Board of Northland Library Cooperative and the State of Michigan Department of Treasury and is not intended to be, and should not be, used by anyone other than these specified parties.

COMMUNICATION OF MATERIAL WEAKNESSES

To the Board Members of Northland Library Cooperative
Alpena, Michigan

In planning and performing our audit of the financial statements of the governmental activities and the major fund of the Northland Library Cooperative, Alpena County, Michigan (the Cooperative) as of and for the year ended September 30, 2019, in accordance with auditing standards generally accepted in the United States of America, we considered the Cooperative's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Cooperative's internal control. Accordingly, we do not express an opinion on the effectiveness of the Cooperative's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency in internal control that we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Cooperative's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiency in the Cooperative's internal control to be a material weakness:

1. Lack of Adequate Controls to Produce Full-Disclosure GAAP Basis Financial Statements

Criteria:	All Michigan governments are required to prepare financial statements in accordance with generally accepted accounting principles (GAAP). This is a responsibility of the Cooperative's management. The preparation of financial statements in accordance with GAAP requires internal controls over both (1) recording, processing, and summarizing accounting data (i.e., maintaining internal books and records), and (2) reporting government-wide and fund financial statements, including the related footnotes (i.e., external financial reporting).
Condition:	As is the case with many smaller and medium-sized entities, the Cooperative has historically relied on its independent external auditors to assist in the preparation of the government-wide financial statements and footnotes as part of its external financial reporting process. Accordingly, the Cooperative's ability to prepare financial statements in accordance with GAAP is based, in part, on its reliance on its external auditors, who cannot by definition be considered a part of the Cooperative's internal controls.
Cause:	This condition was caused by the Cooperative's decision that it is more cost effective to outsource the preparation of its annual financial statements to the auditors than to incur the time and expense of obtaining the necessary training and expertise required for the Cooperative to perform this task internally.

Effect: As a result of this condition, the Cooperative lacks internal controls over the preparation of financial statements in accordance with GAAP, and instead relies, in part, on its external auditors for assistance with this task.

View of Responsible Officials: The Cooperative has evaluated the cost versus benefit of establishing internal controls over the preparation of financial statements in accordance with GAAP, and determined that it is in the best interest of the Entity Cooperative to outsource this task to its external auditors, and to carefully review the draft financial statements and notes prior to approving them and accepting responsibility for their content and presentation.

This communication is intended solely for the information and use of management, the board members, and others within the organization, and is not intended to be and should not be used by anyone other than these specified parties.
